Subject: Academic Probation
Date: Tuesday, January 26, 2016 1:47:12 PM

Good afternoon,

Just wanted to give you all an update as to the academics of our academy students.

- Of the 59 academy students, only 2 (3.4%) are on academic probation where their GPA is less than a 2.5.
 - [REDACTED] has 2.27 unweighted and a 2.39 weighted.
 - [REDACTED] has a 1.85 unweighted and 2.00 weighted. Plus, there have been many behavioral complaints and now an out of school suspension issue. This will all be noted on his probation letter because he is in jeopardy of being dismissed from the academy at the end of this school year.
- Additionally, 2 academy students (again 3.4%) have an unweighted GPA that falls less than the 2.5 but their weighted GPA is at a 2.5
 - [REDACTED] has 2.42 unweighted but a 2.5 weighted.
 - [REDACTED] as a 2.25 unweighted but a 2.5 weighted.
- So roughly 7% of our academy students aren't where we'd like them academically. These are individuals that we need to continue to monitor.
- All in all, I'm pleased with the academic progress of our academy students!

Thank you again April for compiling all of the GPA info! I will be off campus on Thursday for an academy director's meeting and will report back any pressing info!
